Audrey II
Notes and Requirements

Audrey II #1:
- The counter unit is not supplied with the plant rental. To operate A1 correctly, you will need: A counter with a 4 – ¾” trap and the surface surround the trap needs to be ¼” thick to accept the binder clips used to attach the plant to the table. See Additional rental page for counter rental details.
- Extra binder clips are required and not provided.

Audrey II #2:
- This puppet is designed to be operated with the left hand.
- The jacket containing the false arm is included in the rental. Jack approx. size is 38-40

Audrey II #3:
- This pot counterweight is not supplied. (Approx. weight of the puppeteer) The counterweight is required for the safety of the puppeteer as well as the plant. Counterweight must be placed at the bottom of pot interior, upstage under the puppeteer’s chair.

Audrey II #4:
- Not drop bolting A4 to the stage floor will reduce the amount of action that is able to be achieved with this plant.
- Counterweight for the puppeteer’s backpack is not included. (Amount determined by puppeteer, approx. 40lbs was used for our production)
- A sleeve that looks like a tongue is supplied for the stagehand (to disguise their arm) that throws the rat poison and machete from A4
- The machete that is required to be used is packed in with the A4 plant rental.
- Three small pods with pots are included for leaf cuttings. Stems can be inserted into the erosion cloth covering the root bed.
The minimum vehicle requirement for transporting the basic Audrey II package is an enclosed dock height truck with a flat floor at least 18’ long and a truck bed height of 50” from ground level. (U-Haul trucks do not fit these requirements and are NOT acceptable.) The equipment will not be loaded onto any vehicle that does not meet these minimum requirements. Prop shop staff will email specific crate dimensions upon request. It is the responsibility of the rental client to secure appropriate transportation and to keep all prescheduled rental pickup and return appointments. Rentals can be transported utilizing multiple pickup times and trips if so scheduled in advance.

Trucks should be equipped with tie-down straps, ropes, load-bars, pads, etc suitable for securing heavy items. Please note that truck loading and unloading labor is the responsibility of the lessee.

For any questions on shipping requirements, or to schedule pick-up and return of equipment, contact the Skylight Prop Department.

Rental pickup and return appointments are best schedule Monday- Friday between the hours of 8:30am-4:30pm. Appointments outside of those normal business hours are sometimes possible but are an additional fee to cover staff overtime.
